1.1 Policy for Non-Completion of Course – ‘N’ Determination

An ‘N’ Determination occurs when a student does not meet minimum requirements to complete a course (subject) in Year 10, Year 11 or Year 12.

Students will not satisfy the course completion criteria if:

- they have not followed the course developed or endorsed by NESAs;
- they have not applied themselves with diligence and sustained effort to set tasks and experiences provided in the course by the school;
- they have not achieved some or all of the course outcomes.

2.1 Warning Letter Procedures in the Lead up to ‘N’ Determination

- Parents will be notified by Director of Learning Senior College by phone or email.
- the Leader of Learning will complete a warning letter in line with NESAs guidelines, will meet with the student advising the student of the problem and giving them adequate time to rectify the situation;
- the letter, signed by the Director of Learning Senior College and the relevant Leader of Learning, will be forwarded to both the student and the parent or guardian (if the student is under 18 years of age);
- the Director of Learning Senior College will request written notification from the student/parent/guardian that the warning letter was received;
- the Director of Learning Senior College will retain a copy of the warning letter and other relevant documentation;
- a follow-up warning letter will be issued if the problem is not rectified.
- After two warning letters the procedure for the advice of ‘N’ Determination will take place.

2.2 Procedures - Advice of ‘N’ Determination

If at any time it appears that a student is at risk of receiving an ‘N’ Determination in any course, for any reason, the relevant Leader of Learning will meet with Director of Learning Senior College and relevant Head of House to discuss the issue. The following procedure will be followed:

- The student will be given appropriate opportunities to meet course requirements (See 2.3)
- If they do not meet the course requirements the parents and student will be required to meet with the Head of Senior College and Director of Learning Senior College and their Head of House to discuss a final opportunity to meet the course requirements.
- If the student does not meet the requirements, the student will be issued with an ‘N’ Determination and the Head of School will be notified.

The school undertakes that written warnings are issued in a timely manner. It is imperative that Leaders of Learning have processes in place to monitor student progress, particularly on major works that are completed over a long period of time. Failure to submit a major work by the due date should not be the initial cause of concern – lack of sufficient progress will have been detected and documented well before this date.

2.3 Procedures - Awarding 'N' Determinations

NESA has delegated to the Head of School the right to determine whether a candidate has satisfactorily completed the mandatory curriculum requirements set out by NESA for the ROSA and whether or not a HSC candidate has satisfactorily completed each Board endorsed course.

If the Head of School is being asked to indicate that a student has not applied themselves with diligence and sustained effort, it should be clear that all avenues have been exhausted. This would include:

- notification to parents via phone call or email;
- evidence of correspondence and/or meetings between the parents and classroom teacher;
- consultation with the student's Head of House and/or tutor;
- the issue of academic detentions/catch-up classes
- the use of supervised study periods in place of 'free' periods

Once two warning letters have been sent home, and the student has failed to rectify the situation, the Head of School may make an 'N' Determination. This will be notified to NESA via Schools Online. The Director of Learning Senior College is responsible for ensuring this information is entered correctly.

The Head of School, in consultation with the Director of Learning Senior College will complete the Head of School's 'N' Determination form and forward a copy to both the student and their parents or guardians. A copy of the Student Appeal form should also be forwarded. The student and their parents or guardians must be advised in writing of their right to appeal the Head of School's decision.

2.4 Procedures - Appeal process for 'N' Determinations

Following receipt of the letter there are two courses of action available to the student – they may accept the 'N' Determination or they may lodge an appeal.

If a student does not wish to appeal, the matter is finalised and the 'N' Determination stands.

If the student wishes to appeal, they must forward this in writing to the Head of School. Following receipt of the appeal form, a school review will be conducted. An Assessment

Review Panel, consisting of the Director of Learning Senior College, Head of Senior School, the relevant Leader of Learning, the student's Head of House and the teacher of the subject concerned will be formed.

The following items will be reviewed:

- the student's level of involvement in classwork;
- the proportion of assignments and homework completed in the subject;
- measures taken to improve the student's progress (see points listed previously) and whether their application improved after the warnings and counselling;
- the existence of any family or personal problems known to the Head of House;
- evidence that sufficient warnings had been delivered and acknowledged.

Based on the recommendation of the committee, the Head of School may revise the 'N' Determination. If it is to be removed, they must notify the NESA and the student concerned in writing. The letters will be drafted by the Director of Learning Senior College and signed by the Head of School.

Following a successful appeal at school level, all documentation including the original Head of School's 'N' Determination form, the student appeal form and the head of School's report from the school review, should be retained by the Director of Learning Senior College. It is not necessary to send any of this documentation to NESA.

If the 'N' Determination stands, the Head of School will notify the student concerned in writing of his decision.

On receipt of notification of the decision, the student may choose to make no further appeal and accept the 'N' Determination. Alternatively, they may seek a NESA review of the Head of School's decision.

The NESA review will be based purely on the Head of School's 'N' Determination form, the student appeal form and the Head of School's report from the school review that was conducted. Copies of the warning letters that were issued should also be forwarded to the Board. NESA will notify both the student and the school of the outcome of the appeal.

Each year the Events Timetable distributed by the NESA will clearly indicate dates by which 'N' Determinations must be issued and any subsequent appeals carried out.

3. Further Information

Any questions regarding the processes outlined in this document should be directed to the Director of Learning Senior College.
